

MIKAH

MILANO  1 9 8 4

MASSIMO HAKIM

Founder, CEO, heart and soul of Caffè MIKAH, Massimo Hakim is a passionate man, a dreamer, full of surprises, a man who knows how to taste, loves to enjoy the best of life but with a very precise, solid and concrete vision. His innate power as a communicator allows him to unite people all over the world with great ease through the simplicity of a cup of coffee, MIKAH of course.

Marketing man dedicates great commitment to the creation, development and constant attention and care of the MIKAH brand that comes from his strong personality and his desire to create a brand of “elegant goodness” without ever forgetting the quality of the product confirmed by his constant research of the best producers in the world that guarantee the “gourmet” excellence of the MIKAH selections.

The growers approved by the MIKAH team of experts ensure the best result in the cup: a genuine taste with a pleasant and lasting aftertaste for an absolutely unique and special experience.

He began his “coffee life”, as he likes to call it, with a small 5 kg roaster to arrive with great success in being present in over 43 countries and in constant expansion.

From the field to the cup ... the mission is the meticulous care of the entire supply chain, the constant attention to detail to ensure an excellent coffee characterized by the personality and charm MIKAH.

CIBALI

Unlike other national and international roasters, our roots go back to the origins of coffee in Arab countries and extend into an international and contemporary portfolio of different blends, roasts and related products.

We are not an ancient company but a dynamic team of professionals from all over the world who know how to face all the challenges of this culture in constant development and fast evolution.

We are not satisfied with the inherited values but we are committed, day after day, to the satisfaction of our customers who are our most important value for us.

Our constant goal is to achieve the highest international standards and absolute perfection in the coffee specialty. We roast our coffee in Italy with a team of specialists who guarantee the best interpretation of our unique blends.

**Dr. Massimo Hakim
Founder**

We have carefully and thoughtfully produced a coffee capsules that would never damage your Nespresso® machines, and brews with a high quality you've come to expect from MIKAH® coffee capsules.

100% ARABICA OPERA

A blend of Arabica coffee from South America, Asia and a small percentage of Central Africa.
Probably no Arabica alone can produce the same result.
Medium body, sweet taste, very pleasant aroma that recalls the scent of freshly baked loaf with velvety cream.
Elegant taste with prolonged effect characteristics.

Roasted and Packed in Italy
Bag 1000g (35 Oz) Whole Beans
Item Code: MH.001NS

EXPRESS PRIVATE SELECTION

ESPRESSO RISTRETTO BELLINO

Bellino is a superb blend of washed Arabica grain types from the Caribbean and Kappi-Royal 17 Robusta from the Chandragiri plantation in Karnataka, India. We are proud to import these origins that characterize and differentiate our style of coffee. A medium roasting procedure allows obtaining a uniform aroma and incorporating their opposite qualities to form an exceptional blend for a perfect northern Italian style espresso. The Bellino blend is characterized by a great personality: tenacious, durable and free of bitter nuances, dedicated to those who appreciate the quality of Arabica but at the same time seek a slight note of dark chocolate for an aftertaste with an extraordinary effect.

Roasted and Packed in Italy

AMERICAN COFFEE

OUR DECAFFEINATED PICCANTO

The impression that is often associated with decaffeinated coffee is that it is not comparable to real coffee. The truth is that a bad coffee, once decaffeinated, remains bad while a good coffee, even after this process, remains good. This mixture does not contain chemical residues due to the decaffeination process which allows us to have a lighter coffee, 97% caffeine free. Careful and scrupulous processing for this medium-bodied mixture with light yet velvety acidity, clean and with a well-balanced aftertaste.

ACCESSORI E

MERCHANDISING

We constantly increase our line of Mikah-style accessories, to provide solutions tailored to the different needs of our international retailers, to restaurateurs, dedicated to their customers. This range of accessories and merchandising is constantly updated with unique and limited offers in order to satisfy the individual needs of our customers. We develop and customize shoppers, cups, sachets of sugar and other items at the specific request of our customers according to their needs.

Keeping the coffee machine clean is never remarkably enough. If all espresso machines were treated regularly, the quality of the coffee would significantly improve. Keeping a coffee machine in order is as important as buying good, well-roasted and mixed beans. Keeping your machine clean contributes to the preparation of a quality espresso but also guarantees a longer life

CUSTOMIZE YOUR MIKAH EXPERIENCE

STREET COFFEE

#MIKAHMOMENTS

#MikahMoments Street Coffee is a MIKAH project that allows you to sell our exquisite coffee everywhere with the traditional concept of “Street coffee”. A structure characterized by a strong visual impact and equipped with all the necessary equipment to offer customers the unique and authentic emotion of true Italian espresso! #MikahMoments Street Coffee can be purchased with an “all inclusive” option that includes coffee, machinery and accessories. Available in two sizes. Contact us for more information!

#MIKAHMOMENTS

MEMORIES

If I think back to 1984 when we started in a small shop in Milan and think about today and our presence in many important countries in the world that allow us to serve hundreds of thousands of coffee every day, you can't imagine the joy I feel .

Yes, sometimes it was hard, it is and probably it will still be but the satisfaction for the quality we have achieved with our coffee and the growing success it is obtaining, reward us for every sacrifice made. Today I can say that it was really worth it. Many kilometers every year to visit plantations, customers, fairs ... in 2019 over 600.000 km made my journey with Mikah wonderful.

Happy, satisfied and grateful that we found clients like you who believed in Mikah and gave us the opportunity to test ourselves, share our passion with you and show you that we can meet your expectations.

From day one our promise was to keep the quality level high to be the best Italian coffee brand and today I can say that we have kept the promise while always respecting our standards. Thanks to all of you for being part of this wonderful journey of mine!
