Our story

Bodegas Neleman's range of organic and vegan wines are inspired by the lifestyle of Mediterranean Spain. It's where Dutch wine lover Derrick Neleman is bringing a modern approach to the craft of wine making whilst honouring the spirit of the old vineyards in the region.

These lie to the West of Valencia at Casas del Rey, 900m above sea level - one of the area's highest points- and, along with the climate, give the wines their own special character.

The height, combined with the dryness of the soil, causes the vines to work harder, casting their roots deeper in the search for water. The deeper the roots, the deeper and better the quality of the grapes. And the grapes are delicious: indigenous varieties including Bobal, Tardana, Verdil, Macabeo, Monastrell, Tempranillo, and Garnacha.

They give the taste of Valencia: modern wines with no excessive oak or over-mature overtones. They have a balance, warmth and freshness that makes people think of being on holiday.

Creativity is also seen in the wine labels where young artists from around the world make the brand contemporary.

Ecologically responsible, a tree is planted in the nearby Parque Natural for every 173 bottles of wine sold.

Planting new trees helps offset carbon emissions, improves biodiversity and restores the local landscape to its more natural state. Natural cork and Helix screw corks are used both of which are 100% renewable, recyclable, and biodegradable.

NELEMAN ORGANIC VINEYARDS

Calle San Vicente 23 | 46310
Casas del Rey-Venta del Moro |
Valencia | España

Our village with approximately
50 inhabitants located in the
National Park of Las Hoces del Cabriel
is surrounded by vineyards, olive trees,
almond groves and forest.

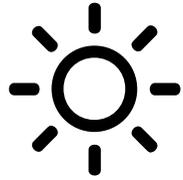

DIEGO AND DERRICK IN A NELEMAN VINEYARD.

DERRICK

DIEGO

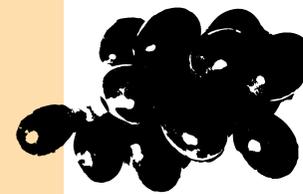

WARM DAYS, COOL NIGHTS

The climate is warm due to our proximity to the Mediterranean sea, with high plateaus where the temperature decreases considerably and the humidity of the sea is mitigated. Perfect for grapes.

NATIONAL PARK OF LAS HOCES DEL GABRIEL

Our vineyards are situated in National Park of las Hoces del Gabriel which is World Heritage of Unesco.

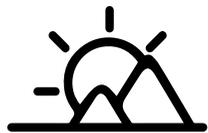

TARDANA, MACABEO AND BOBAL

The terroir of our terraces provides us with an abundance of healthy grapes and, walking through it, we have always been inspired to turn them into cheerful and pleasant wines.

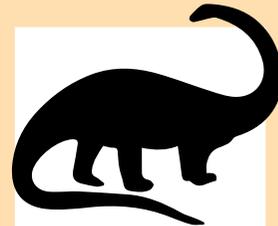

HARVESTED AT NIGHT

We harvest our grapes mostly at night to prevent them from oxidation.

900M ABOVE SEA LEVEL

Since 1997 our Organic Farm has been located on high, mountainous landscape. Viticulture of terraces on old and low-yielding soils.

100 MILLION YEARS OLD SOIL

A healthy and balanced soil yields a richer biodiversity that provides a richer breeding ground for tastier grapes.

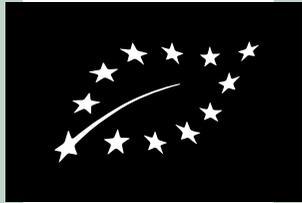

60 TO 80 YEARS OLD VINES

This means low but very special yield of which we make very special wines.

**FILLED
WITH FUN,
NATURE
AND DOING
GOOD.**

100% ORGANIC

Neleman wines are certified organic.

VEGAN FRIENDLY

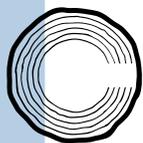

Neleman wines are certified vegan. We filter our wines with pea protein.

DRY FARMING

NO WATER WASTE

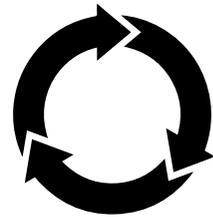

Our vineyards are not irrigated.

CARBON PROOF CERTIFIED

CO₂ NEUTRAL

We plant one tree in the National Parks surrounding our vineyards for every 173 bottles produced.

CIRCULAR

We recycle cork because when granulated it's a fantastic new raw material to use as isolation in buildings.

NELEMAN
ORGANIC VINEYARDS

**Good wine
to save
the world.**

Our wines

Organic: Our wines come from organically grown grapes, which means that we implement an entirely different set of practices to maintain the vines. Having vineyards free of substances such as herbicides and fungicides, we create a totally natural balance as an “eco-system” around and inside the vineyards.

Vegan: The reason that all wines are not vegan or even vegetarian-friendly has to do with how the wine is clarified and a process called ‘fining’. In Bodegas Neleman, we exclusively use fining agent coming from the vegetables; concretely potato and peas. All the wines from Bodegas Neleman are certified Vegan by the British vegan society.

Carbon Proof Certified Wines: CARBONPROOF offers its seal for those organizations that are friendly and responsible with the environment by trying to minimize the impact of its activity on the climate change.

Bodegas Neleman calculates an ecological footprint of 0,471 kg CO2E/kg. To compensate this, we are planting one tree in a natural park in Valencia for every 173 bottles produced.

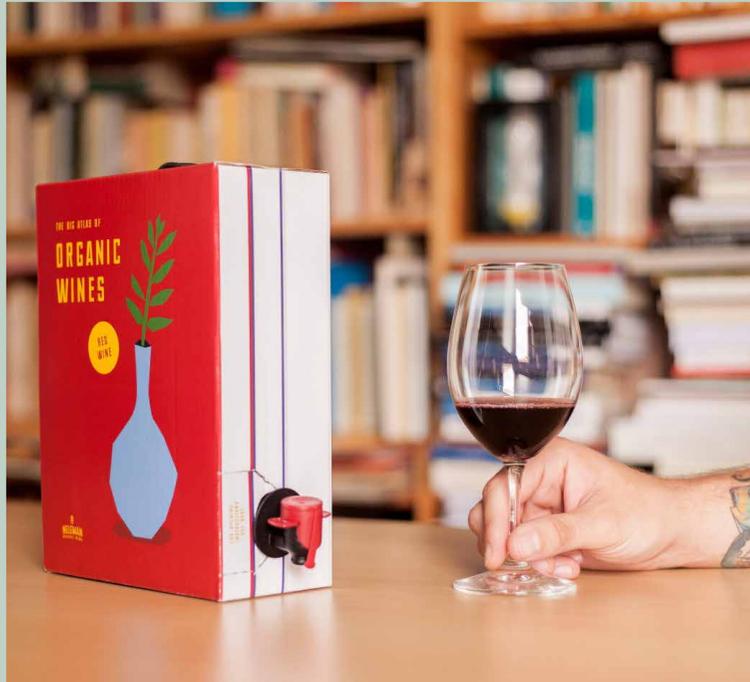

Awarded wines: Our wines are getting Gold Medals in the most relevant challenges around the world, as well as quotes of 90-93 out of 100 points from James Suckling.

Revolutionary designs: Screened on the best design blogs worldwide: Trend Hunter, Lovely Package, The Dieline, Packaging of the World...

Innovative packaging: Helix screwcork + NDtech corks....

Direct connection with our customers: Story to connect with the final consumers in every range: “30 Wishes 50 Reasons” (every person can totally personalize their bottle), “Pink Glasses” (3 different glasses designs per carton), “Just Fucking Good Wine” (statement against wine snobbery)....

Never done before: in the wine world: “D Project”, developed in cooperation with Hewlett Packard. All the labels are unique as a fingerprint.

INNOVATION

Wine in a box is better for the environment and makes it easier to drink just one glass of wine without the risk of making the rest of the wine less drinkable. And to encourage drinking from a box, we have just made the box as beautiful as possible.

DESIGN

We work together with young artists - from Brasil to Spain - to make the design of our labels, packaging and shop. More design, more beauty. More beautiful thoughts like I love you.

JAMES SUCKLING.COM 

NELEMAN BOBAL VALENCIA
ROBUSTA 2017

An impressively juicy and lively bobal with dark-cherry aromas and flavors in abundance. The succulent palate has plenty of fresh dark-plum flavor. Drink or hold.

Neleman Family Collection

Crispy, vibrant and exiting wines, combining local grapes with International varieties. A wine range offering young wines up to Crianza and Reserva.

Bike collection

At Bodegas Neleman we love bikes! They are our past and our future; with the same spirit we have created these wines combining local with International varieties, tradition on the vineyards with innovations, care of the nature and health. Crispy, young, vibrant and exiting wines. Easy going for everyday life.

Viognier verdil

Very distinctive wine made from rare Verdil grapes together with Viognier at a high altitude to produce a smoky, tense wine with broad lemon, lime fruit and a nice acidity.

From our vineyards close to the River Clariano, in the valley Vall d' Abadia (name given by the surprising whiteness on the limestone surface).

Chardonnay Muscat

Coming from our vineyard in Casa Coronas, in Alforins Valley. The Chardonnay has been picked up at an advanced point of maturation and the Muscat in an early state in order to give a subtle touch of flowers, white fruits and peach in the nose and a wide mouth.

Tempranillo Monastrell

Both varieties are produced in a rarely fresh area in Valencia region, at 700 m, in a hilly district set in a mountainous region. Harvesting is done during night time. Aromatic wine of bright red fruits, pretty floral with a fleshy, soft and silky palate.

Carnacha Marselan

The vineyards are situated in a hilly district that offers great conditions of rocky soils to grow Marselan variety (hybrid between Garnacha and Cabernet Sauvignon). To give birth to this fresh wine we blended it with Garnacha to reinforce the fruity and jammy. Powerful taste and fruitiness are the best words to define this delicious wine.

SMALL BOTTLE, SAME FLAVOURS!

Now also available in 375 ml.

Family collection

Crispy, vibrant and exiting wines, combining local grapes with International varieties. A wine range offering young wines up to Crianza and Reserva.

"Signature" Crianza Monastrell Tempranillo

Fermented at 20-22°C. At this temperature we sacrifice a little freshness but achieve greater mouth fill and complexity. The wine stays 9 months in French barrels for aging. With a background of very seductive fruit the wine offers toasted notes, mineral lively aromas and a perfectly balanced sweet tannin.

"Signature" Reserva Monastrell Tempranillo

The wine goes through malolactic in French oak barrels where it stays for 1 year. After that the wine stays 2 years in the bottle prior to leaving the winery.

A very rich and full bodied red wine with aromatic red fruit, fine oak, vanilla and a touch of toffee and coffee. A taste of black fruit and soft tones of moccha, nuts and vanilla.

Nucli

Three young female designers who studied at Elsiwa Barcelona designed NUCLI. NUCLI is the Catalan word for CORE. It's the essence of a good wine.

They are young wines achieving a particular complexity and personality thanks to an "old times" elaboration style (including the use of concrete vats during the fermentation), lees contact and French oak.

The vineyards lay on an altitude of approximately 600 meters above sea level, in the southwest of Valencia province. Day temperatures can rise very high, imparting sweetness to the fruit. Nights can be very cold, giving the fruit the bracing acidity. Rainfall is almost non-existent, allowing the vines to grow grapes concentrated in flavor.

Nucli blanco, Macabeo Sauvignon Blanc

Elaborated with a skin maceration for 24 hours. The fermentation takes place at 14°C. Finally, there is a lees contact for 3 months. This is a very fresh, clean, bright and crispy wine. In the nose you can feel citrus, peach, grapefruit and chamomile.

Nucli rosado, Tempranillo Syrah Monastrell

The harvest takes place at night to assure fresh aromas. Grapes are pressed to obtain a lightly colored must that is slowly fermented at 15°C and quickly bottled. Fine aromatic intensity with notes of very ripe small berries, violets and wild strawberry. The mouth is refreshing with ripe melon taste, fresh almonds and fennel.

Nucli tinto, Tempranillo Syrah Petit Verdot

The wine fermentation takes place at 18°C. The wine goes through a short maceration time of 6-7 days. After that, the wine goes through malolactic fermentation in concrete tanks of 2300 liter and then ages in concrete tanks. This is a wine with a good body, a complex wine. In the nose clean violets and cherries. Soft tannins in the mouth.

30 wishes 50 reasons

www.50r30w.com Let's just imagine a wine bottle that gives you many reasons to buy it and share it with the people you like and for the reason you want. We proudly present 50 Reasons & 30 Wishes, the first customizable wine bottles that encourage you to share a bottle of good wine with a personal message.

We get these wines from vines that are situated in a hilly district in a mountainous region cut up by ravines that may be more than 100m (350 ft) deep. In the Caroig massif, the limestone favours the formation of underground aquifers, and these are very important for our vineyards and grapes.

50 reasons

Sauvignon Blanc 100%

Fresh Sauvignon Blanc fermented and aged in stainless steel vats. It has a nose of preserved lemon, lime flesh and white peach over a strong slate minerality. On the palate the wine is crisp, dry and bracing with a fine citrus flavor and an intriguing minerality that makes you want to sip it again and again.

30 wishes

Tempranillo 100%

Young wine made from grapes harvested from three different Tempranillo blocks. Fermented at low temperature in stainless steel vats. A ruby violet wine, very pleasant and floral with spicy hints and a fragrant fruity background.

Tempranillo 100%
(varietal wine)

Sauvignon Blanc 100%
(varietal wine)

WE ARE A BUNCH OF CORK SUCKERS.

We go back to real cork. It's much better for the world because cork oaks are known for their capacity to reduce enormous amounts of CO2 and they play an important role in curbing forest fires. So we come with a unique screw cork and the so-called NDTech cork which is tested to ensure that your wine is not stale or undrinkable. improvements. It's that simple!

Pink Glasses

Do you have any doubts that pink glasses have amazing power of mood improving? Derrick Neleman, making his own organic wine in Spain together with good friend and winemaker Diego Fernández Pons, fell in love with this special design from Luksemburk and wanted to bring it into production, taking brilliant design and great organic rosé to winelovers everywhere!

Screened on design blogs world wide: Lovely Package, The Dieline, Packaging of the World, Trend Hunter...

Pink glasses Rosé Garnacha 100%

The Grenache grapes are harvested early on in the season to preserve a good acidity. Also harvest takes place at night. Fermented in steel vats, the juice is allowed to macerate on the skins just enough to get a nice pink color with salmon highlights. A great rosé with an approachable nose of strawberry, raspberry and cranberry gives way to notes of wet stone and slate. Light, cool and bracing on the palate; fresh but not sour, very pure and pleasantly fruity.

100% Garnacha

the world.**

Just Fucking Good Wine

The "Just Fucking Good Wine" has been designed by a young German designer for Bodegas Neleman. The idea is to make a statement against wine snobbery. We do not mean to be rude, but we just want to bring back the wine to everyday wine lovers.

Just Fucking Good Wine White

The soul of this wine is composed by Verdil, an indigenous Alforins District variety. We blend it with Chardonnay, Sauvignon Blanc and Viognier. The grapes are placed in a cold store for 15 days at -5°C. Partially fermented in new French Oak thus adding extra aromas (toasted, spices) and a velvety finish. Jammy, sexy mouth filling taste but keeping freshness and acidity.

Just Fucking Good Wine Rosé

100% hand-picked Garnacha grapes are used to make this wine through a traditional free-run method. Light maceration prior to the alcoholic fermentation at 18°C controlled temperature. Bottled at the very peak of youth. Clean, fresh, delicate, floral and "cake-ish" hints with subtle strawberry notes.

Just Fucking Good Wine Red

Marselan is a varietal whose father is Cabernet Sauvignon and mother Garnacha. The wine is made from low yielding vines in small fermentation tanks. Aged in new French oak for over 14 months. Bottled without fining or cold stabilization to keep the wine as pure as possible. It is a powerful, tasty and balanced wine that can match fine foods or be enjoyed as a welcoming drink.

SMALL BOTTLE, SAME FLAVOURS!

Now also available in 375 ml.

Single Vineyards

A combination of local grapes, tradition, low yields, dry farming, fermentation and ageing in oak barrels, soul and time. Very special wines of limited production, elaborated with grapes coming from our oldest organic vineyards planted in the heart of the Park Hoces del Cabriel (UNESCO WORLD HERITAGE).

Macabeo 100%

Made from 20 year old Macabeo vines on a non irrigated plot. 50% of the wine is fermented in oak barrels and aged in them for 4 months. To achieve the balance between freshness and ripe aromas, the bottled wine is the blend of 50% oak fermented and 50% stainless steel fermented Macabeo. On the mouth flowers dance along with anise and zesty notes on a background of softly toasted aromas.

Tardana 5th Anniversary (Natural wine, not filtered)

Fermentation and aging in concrete biodynamic egg-shape vat. Made from a white grape which is close to extinction: Tardana. Its name means "late", meaning it is the last grape to ripen during harvest. By drinking this wine - full, well balanced with lingering flavors of delicate white fruits - you help to preserve a genuine diversity of wine grapes.

The swimmers

Both varieties Riesling and Viognier are handpicked in small cases. After a manual selection they go into a cooling chamber for 24 hours. When the grapes are cooled down to 4 degrees, they are crushed and macerated for 24 hours more, then the must is separated by runoff and fermented at 14 degrees. Aging on lees and french oak barrels.

A combination of local grapes, tradition, low yields, dry farming, fermentation and ageing in oak barrels, soul and time. Very special wines of limited production, elaborated with grapes coming from our oldest organic vineyards planted in the heart of the Park Hoces del Cabriel (UNESCO WORLD HERITAGE).

Cabernet Sauvignon Bobal

Made from over 50 year old Bobal vines and 15 year old Cabernet vines grown without irrigation on high altitude mountains. After fermentation in 700 liters open fermenters, the wine is aged 2-3 years in French oak barrels and 1000 liter French oak tanks (4 months). On the mouth, enjoyable balance of smooth tannins, sweet fruit (plums, berries, violets) and an elegant oak taste.

Bobal 100%

Selection of the most expressive hand-picked Bobal grapes from our oldest bush vine vineyards. The grapes are fermented in 700-liter open fermentors and then go through malolactic fermentation followed by 14 months of aging in new French oak barrels and 1,000-liter French oak tanks. In the mouth, elegant and balanced oak aromas dance along with the black, intense fruit expression of the wine.

Bobal Robusta

Robusta is crafted with grapes coming from our Hoya de la Cierva plot where vines benefit from the harmonic growth that ancient soils give them - from the Cretaceous times (more than 100 million years old) -. Grapes are hand-picked and fermented in a concrete open fermentor going through malolactic fermentation and aging in a single 1,000-liter French oak tank.

Robusta, rich and powerful, concentrates the flavor of fruits and spices over a mineral background that reveals the personality of the soil it grows on.

Cava

Bubbles and more bubbles! From the most iconic vineyards from Requena.

Our Cavas are made according to the traditional method. They reflect the aromas and flavors of a precious and perfect terroir. You can find Requena's county inland of Valencia, 70km far away from the Mediterranean Sea, with an altitude up to 900 meters above sea level. Thanks to the climate, geographic situation and rough soils, we are able to get astonishing grapes; keeping their berries with fine and complex aromas that shut the essences of the Valencian village in every bottle of Cava.

Cava brut, Macabeo Chardonnay

This Cava has been elaborated with best white grape selection from Requena, looking for a major complexity. Joining in the same product clusters from different soil's composition. Fruity and floral. Living, fine and persistent bubble. White fruits and citrus notes with a background of very elegant pastries.

Cava Seco (dry), Macabeo Chardonnay

Smooth and refreshing medium-bodied Cava made from a selection of ripe Macabeo and Chardonnay grapes from unproductive dryland vineyards; selected by tasting berries, seeking maximum fruit expression. It is soaking for 11 hours at 10°C to extract the ripe aromas that are perceived when tasting it. Creamy texture and persistence in mouth. Balanced acidity, long taste remembering rye bread.

Cava Rosé, Garnacha 100%

The grapes are pressed softly, keeping just a noblest fraction of the must to achieve the delicacy that express this cava. Besides, it has been fermented - first and second fermentation - at a low temperature of 16°C, looking for a wide flavor range. Redcurrant tonalities, fine bubble and persistent foam. Intense strawberry fragrance with yogurt notes. Creamy texture, crisp and balanced acidity.

Derrick wines

www.derrick.wine Never done in the wine world before. Each label is different, UNIQUE as a fingerprint. "D" from Drink, Difference, Diversity, Delicious, Destiny, Delightful, Delectable... Derrick is about affordable luxury.

Across the borders of terroir and region we blend the best grapes from Valencia, La Mancha and Navarra, to obtain the best and most unique tasting experience.

Derrick Chardonnay Macabeo

The white varieties are harvested early in the season to preserve a good acidity, and at night to protect them from oxidation. Fresh, crispy and flavorful wine with an attractive minerality and buttery creaminess. Hints of passionfruit with pineapple, beeswax, almonds, vanilla and butter from the oak.

Derrick Garnacha 100%

Fermentation at 18°C. and short maceration of 6-7 days malolactic fermentation under controlled temperature. Ageing in new and half-toasted French oak during 6 months. Intense and elegant red berry fruit character, with tobacco and herbs notes. Elegant, with unique varietal characteristics and long aftertaste.

Derrick Tempranillo 100%

Fermentation at 18°C. and short maceration of 6-7 days malolactic fermentation under controlled temperature. Ageing in new and half-toasted French oak during 5 months. Aromas of cherry, plum, mature tomato, dried fig with a background of vanilla, leather and tobacco. Medium full-bodied wine with round tannins.

Origens collection

Selected, designed and elaborated by and for Bodegas Neleman. An exclusive selection made by our winemaker, Diego Fernandez Pons, in our sister wineries from Navarra and Rioja.

Merlot (No Sulphur added) D.O.P. Navarra

A natural wine, intervening as little as possible in both the vineyard and the winery. With the aim of letting the grapes do the talking and where the wine is purely fruit. The maceration process is short (5 days) and static, with the minimum intervention and without plunging or pump overs. Subsequently, a manual devalting is carried out as well as a slight pressing. The malolactic fermentation takes place in a 12.000-litre vat. It is smooth and round with a fine fruit balance.

Tempranillo D.O.P. Navarra

The vineyards in Navarra are covered by the mountain ranges of Urbasa and Andia on fresh calcareous clay soils. Alcoholic fermentation takes place in tanks of stainless steel at a temperature of 24°C. Malolactic fermentation takes place in concrete tanks for 9 days. It is almost unfiltered, leaving a little bit of lees in the bottle, where the wine ripens beautifully. Light, fresh, smooth and easygoing with perfect aftertaste.

"One of 3" Semi-Crianza D.O.P. Rioja

Our Rioja contains Graciano, Tempranillo and Garnacha from old vineyards (more than 100 years old). The alcoholic fermentation takes place in tanks of permeable concrete - so the wine can breathe - with a capacity of 3000 liters. Pressed in a vertical press, malolactic fermentation in its own lees in barrels of French oak. Then aging of 6 months in French oak barrels. Bright and juicy, it's crammed with blackberry, cherry and red fruit flavours all wrapped in lovely toasty spice.
