OLEUM HISPANIA:

THE BEST OLIVE OIL DIRECTLY FROM THE OIL MILL

We only select the best olives, collecting them in the perfect moment of ripeness, which ensures the maximum quality of the product.

Once the olives are harvested, we carry them to our Oil Mill, where they are immediately cold-milled to preserve the attributes of the final product.

The cold extraction process is carried out by mechanical procedures and below 22°C, with the objective of not altering at all the flavours and the original properties of the olive to obtain an Extra Virgin Olive Oil (EVOO) of first extraction with all properties, vitamins and fatty acids highly beneficial to the body, totally intact.

AWARDS & RECOGNITIONS

- Countries as USA, Canada, Argentina, Spain, France, Italy, Greece, UK, Switzerland, Germany, China, Japan or Israel have recognized the quality of our amazing olive juice.
- See our full list of awards and recognitions in <http://www.oleumhispania.com/Premios.aspx>

QUALITY COMMITMENTS

QV EXTRA INTERNATIONAL

- Being members of QVExtra International, we follow its strict quality controls guarantying with its seal to our customers that *the product has met a series of quality requirements which are even stricter than those established by the current legislation.* On this way with this QvExtra seal called SIQEV, the consumer can rest assured that the quality of the bottle of extra virgin that carries this seal remains throughout the full period of its “best-before” date.
